Parent Involvement Calendar

The Child Development Center faculty and staff believe that parental involvement in education is necessary for children to receive the quality education they will need to succeed in the future. Therefore, we want to encourage our parent, grandparents, and other family members to take an active part in the center’s activities. There are many things you can do to help encourage your child’s opportunities to learn.

Please take a few minutes to review the parent involvement activities. Check off the activities you want to participate in.

Take an active part in your child’s education from the start.
