

NSBE Convention Provides Opportunities For CETPS Students

Dr. Aaron Adams and Ms. Vivian Long of the College of Engineering, Technology, and Physical Sciences accompanied 22 students from AAMU to the 44th Annual Convention of the National Society of Black Engineers at the David L. Lawrence Convention Center, Pittsburgh, Pennsylvania.

The theme for 2018 was "Ignite, Imagine, Innovate." The essence of the trip was to provide students with the ultimate membership experience, encouraging them to think outside the box and come up with new and creative ways to go after their dreams. They attended different technical workshops that taught professionalism and entrepreneurial skills. They also got to listen to inspirationally charged speeches from members in high ranking positions. Some of the students who received offers of employment or internships during the conference include:

Brandon McNeal

Company: Penn State Applied Research Lab

Position: Engineering Support Student Intern

Major: Electrical Engineering

Classification: Junior

Akeem Samuels

Company: Boeing

Position: Electrical Design & Analysis (full time position)
