

Steps to Establishing a Current Use Scholarship

1. Make an initial \$1000 contribution to AAMU Foundation. The funds will be held on deposit.
2. Complete a new fund account form and receive a new fund account number.
3. During this process, you will:
 - a. Establish criteria for your scholarship--i.e. field of study, GPA, geographical component, etc.
 - b. Assign a department to your scholarship (based on nature of fund) by establishing an on-campus manager of the scholarship within that department.
4. The AAMU Foundation will list the scholarship online.
5. The scholarship will be advertised by the assigned department to its students.
6. Your scholarship account will incur a 5% administrative fee annually.

*If your fund account has not received any donations within a fifteen-month period, it will be considered inactive and subject to closure. You will be notified and consulted prior to the account being closed.

*If you work for a company that offers a gift matching program, please contact your employer to select Alabama A&M University as your charity of choice. We will then work with your matching gift company to verify and confirm the gift match.
