

Operations

The custodial services operations include all campus facilities. The University operates two shifts for the custodial program. A 5:00 a.m. to 2:00 p.m. shift, and a “skeleton” night crew/floor crew to clean high traffic areas and provide major floor care for the university. The shifts custodians work is adjusted in order to maximize efficiency and increase productivity. If you have a complaint or would like to give recognition related to the custodial department, contact one of the following key personnel:

Operations Manager: Walt Alexander

Dormitory (Residential) Supervisor: Earl Fitchard

Academic Facilities Supervisor: Adrian Hambrick
