

The "Write Place" AAMU

WHAT WE DO

The purpose of "The Write Place" is to focus on developing writers—not just writing! We promote writing as a process and work with writers at every stage of writing--whether you have an idea or a fully developed draft, we're happy to partner with you!

WHAT WE DON'T DO

The Writing Center is not an editing service. Your paper will not be edited and returned to you error free. Our job is to help you better understand and improve your writing. Thus, you can expect from us suggestions on how you can improve the overall format, structure, validity, and content.
