

Alabama A&M University

Communicative Sciences and Disorders (CSD)

Carver Complex North, Rm 104

Dear Sir/Madam:

Thank you for your interest in choosing Alabama A&M University, *Communicative Sciences and Disorders Clinic* for speech-language services. We are conveniently located on Alabama A&M University's main campus in Carver Complex North, room 104. Attached is the *Client Manual* which has a number of important forms that need to be completed in preparation for the evaluation and remediation process. Please send completed forms to:

Alabama A&M University
Attn: Esther Phillips-Ross
Communicative Sciences and Disorders
PO BOX 357
Normal, AL 35762
esther.ross@aamu.edu
256-372-4055 (fax)

Completed client forms can also be scanned and or faxed to the clinic via the above email address and fax number. These forms must be received as soon as possible as the AAMU CSD Clinic is a 'free' clinic with a current waiting list. If you have further questions regarding this matter, please feel free to contact me via my direct line-372-4044.

Sincerely,

Esther Phillips-Ross

Esther Phillips-Ross MA,CCC/SLP/L Assistant Professor/Director of Clinical Services Communicative Sciences and Disorders Clinic Alabama A&M University

ALABAMA A & M UNIVERSITY Communicative Sciences & Disorders Clinic (CSD) (Carver Complex North 104)

STATEMENT OF PURPOSE

Alabama A&M University Communicative Sciences and Disorders (CSD) Clinic is a training clinic that is currently free to the public. Our clinic provides hands-on training for graduate and undergraduate students as they progress through the CSD program, learning to apply information gained in the classroom. All students are supervised by ASHA-certified (national) and ABESPA licensed faculty. As AAMU CSD student-clinicians develop clinical skills, they are placed in a position to serve the speech-, language-, and hearing needs of individuals in our community and enhance the effectiveness and quality of communication.

SHARED COMMITMENTS

AAMU CSD Program/Clinic will . . .

- 1. Prepare quality professionals who will be employed in both the public and private sectors (e.g., hospitals, schools, nursing homes) emphasizing transdisciplinary experiences with physicians, nurses, social workers, case managers, teachers, psychologists, and other specialists in health care fields,
- 2. Provide quality speech-, language-, and hearing clinical services to clients at Alabama A & M University and its surrounding communities,
- 3. Disseminate information regarding speech, language, and hearing behaviors through research and collaborative scholarly activities (e.g., presentations, consultations, and publications), and
- 4. Provide community service programs focusing on awareness, education, and prevention of speech-, language-, and hearing disorders.

CLINICAL SERVICES

Clinical services are provided by both undergraduate and graduate students in the Communicative Sciences and Disorders program while being supervised by nationally certified clinical faculty. (i.e., faculty who hold the Certificate of Clinical Competency from ASHA).

Specific services offered by the *Alabama A & M University Communicative Sciences and Disorders (CSD) Clinic* include the diagnostic evaluation and remediation/treatment of speech-language-, and hearing disorders. Prior to enrollment in any of the therapy programs, a current speech and language evaluation must be completed, as well as a hearing screening. Clients with vocal/voice concerns may be required to have a physician's written referral. If a prior evaluation has been completed by another speech-language pathologist/audiologist, the client or guardian may request that the evaluation records be released to AAMU CSD Clinic. However, an evaluation will be administered for all new and returning clients. In addition, each client, (or guardian), must complete and sign the appropriate forms, which include:

- 1. Case history form,
- 2. Authorization for video/audio taping, and student observations and chart review for educational purposes,
- 3. Authorization for release of information TO another agency or physician (if applicable), and
- 4. Authorization for release of information FROM another agency or physician (if applicable).
- 5. Consent for Clinical Services form

Therapy will not be initiated until these forms have been completed and received. These forms can be located on-line under "client forms and manuals", at http://www.aamu.edu/csd/csdclinic.aspx and in appendix A of this document.

EVALUATION

The evaluation of the client's communication skills addresses . . .

- 1. The ability to understand and produce language—may include literacy components,
- 2. The ability to produce speech sounds,
- 3. Voice characteristics,
- 4. Speech fluency,
- 5. Oral-motor structures and functions, and
- 6. Auditory (hearing) skills.

Following the evaluation, recommendations may include enrollment for therapy, referral to another professional agency, or a re-evaluation at a later date.

SERVICE PROVISION POLICIES

Services are provided to clients of all ages. No client will be refused services on the basis of race, gender, ethnic origin, or religion. This policy is in compliance with Title VI of the Civil Rights Act of 1964 and other current regulations that safeguard against discrimination. The Alabama A & M University CSD Clinic reserves the right to refuse services to clients who may be considered inappropriate candidates in this clinical setting.

The Alabama A & M University Communicative Sciences and Disorders Clinic serves the educational and training needs of students. In order for the student clinicians to better

understand the nature of a client's communication disorder, digital recordings may be performed. These media are considered confidential and are solely for the purpose of education. They will be used only by student clinicians, clinical faculty, and clients. The client or guardian must sign an *Authorization for video/audio taping for educational purposes* form to allow these services to be performed. Occasionally, clients may be requested to participate in ongoing research. Such participation is formally requested, and proceeds only with the client's or guardian's consent.

CONFERENCES

Conferences with the family will be scheduled periodically. These conferences usually take place at the beginning and end of the semester. However, a client or family may request a conference at any time by contacting the client's faculty clinical supervisor.

PERIODIC RE-EVALUATIONS

Periodic re-evaluations will be performed throughout the therapy process to continually assess speech-, language-, and hearing skills. This allows for assessment of progress and the planning and development of future therapy goals.

OBSERVATION

Observation of diagnostic and therapy procedures is available to the client's family members in the AAMU CSD observation suites. To prevent client distraction, it is preferred that the family does not sit in the therapy room during a diagnostic or therapy session. In this educational/training environment, sessions may be observed by other students in training. All observers will be required to sign a *Confidentiality Statement* to satisfy state HIPAA requirements.

CONFIDENTIALITY OF RECORDS

A clinic/working folder is maintained for all clients seen at the Alabama A & M University CSD Clinic. Included in this folder are diagnostic findings/reports, therapy reports, case history information, consent forms, as well as other pertinent information. This information is considered confidential. Access to the folder is granted to client's family members, supervising faculty, and student clinicians working directly with the client.

When specifically requested in writing per designated clinic form (one form per request), the clinic will supply relevant information to specified entities such as physicians, schools, or other professionals.

A permanent record is kept for each client of activities in this clinic. No information which could potentially identify the client leaves the clinic. All such information is carefully guarded within the clinic. For more details, contact your faculty supervisor.

WAITING ROOM

The waiting room is for families of the clients enrolled in clinical services. <u>Donations of books</u>, magazines, and toys are greatly appreciated. Parents are asked to please keep the waiting

area clean by returning items to designated areas/places when leaving the clinic. Children are to be supervised at all times. The AAMU CSD Clinic is a "No Smoking/Vaping" zone.

ATTENDANCE

Most clients are seen twice per week for 50-minute sessions. Therapy is most effective when attendance is regular. It is important that every effort be made to be present for ALL scheduled therapy sessions and to arrive on time. THREE absences in a semester or TWO consecutive absences could result in dismissal from therapy for the remainder of the semester. Extenuating circumstances may allow for exceptions at the discretion of the supervisor.

Upon dismissal from the program for absences, the client will be expected to call to request being placed back on the waiting list for the following semester. We begin taking clients for the upcoming semester approximately 1 month before the close of the current semester.

Fall semester – call in July Spring semester – call in November Summer semester – call in April

If you must be absent for any reason, please contact the clinical supervisor(s) -- Mrs. Phillips-Ross, 372-4044; Mrs. Jennifer Horne, 372-4035; or The clinic secretary, Nicky Cotto, 372-5541--as soon as you know that you will not be able to attend. If the above individuals are unavailable, please leave a voice mail message.

CLINIC FEES

Beginning Spring 2017, the AAMU CSD Clinic is a free clinic. Clients selected to receive services clients will be notified. It will be important for all clients to attend clinic sessions on a regular schedule (void of non-emergency absences) to avoid being placed on the waiting list as outlined in this Client Handbook. Clients may be asked to pay for specialized equipment and devices used specifically for their specified communication needs.

GRIEVANCE PROCEDURE AND POLICY

The clinical faculty welcomes any comments or suggestions that may prove beneficial to the client during the diagnostic or therapy process. Complaints related to clinical services should be directed to the Clinic Director, Mrs. Phillips-Ross.

PARKING

All clients are required to request an CSD Clinic Parking Pass from the secretary, Nicky, during the first week of service. All clients must display the parking pass in the windshield or rearview mirror of their vehicle. The parking pass will expire at the end of each semester. New parking passes are issued in the beginning of each semester. Clients are permitted to park in the lots adjacent to either clinic (CCN, CCE, and CCS). Parking is permitted in spaces designated for CSD Patient Parking and in UN-NUMBERED faculty/staff parking spaces ONLY.

TRANSPORTATION

Clients needing transportation to the AAMU CSD Clinic may make arrangements through Handi Ride. There is an application process/fee and not all applicants will qualify. If you desire to inquire about the services Handi Ride provides, they may be contacted at 256-427-6857 (scheduling) or 256-532-RIDE

POLICY FOR CLIENT/CLINIC SAFETY/GUARDIANSHIP

To ensure the safety, security, and well-being of clients served in the AAMU CSD Clinic, guardians of minor children and medical guardians of adults must sign a 'consent to treat form' on behalf of the client, before services are rendered. All clients will be accompanied to and from therapy sessions by their assigned student clinician or supervisor. Specifically, upon completion of therapy sessions, clients are to be escorted to the lobby or other waiting areas and/or returned to the care of their responsible party, unless the client is able to legally operate independently (i.e. drive/UBER/bus and attend therapy appointments independently). Medical guardians of unaccompanied adult clients, upon signing the *Consent to Treat* form, waive all liabilities if such clients leave the AAMU CSD Clinic voluntarily. The AAMU CSD Clinic will attempt to contact the guardian if the latter occurs.

In the event that a client's safety is in question, The AAMU CSD Clinic reserves the right to request that a caregiver accompanies the client to services and remain on AAMU CSD Clinic premises while the client receives services. If the CSD Clinic faculty/staff feel that a client's safety may be in jeopardy, the following actions should be taken:

- Notify AAMU Police Department/Public Safety of the current situation (5555)
- Alert Clinical Director/Clinical Supervisors to assist with the situation (4044/4035)
- Alert the client's responsible party
- Complete a formal incident report

POLICY FOR COMMUNICABLE DISEASES

In the attempt to control the transmission of the communicable diseases listed below, the following policy will be adhered to in the Alabama A&M CSD Clinic:

DISEASE	MINIMUM PERIOD OF ISOLATION OF THE CHILD
Chicken Pox (varicella)	Individual must remain at home until all lesions are crusted and dry. Susceptible child exposed to chicken pox will be excluded from the 10th through the 21st day after exposure. Anyone who has received V12G will be excluded for 28 days.
Conjunctivitis (Pinkeye)	Individual must remain home until 24 hours after treatment (antibiotic eye drops) is initiated.
German Measles	Individual must remain at home for at least five (5) days after onset of rash. Susceptible child will be excluded from the 7th to the 21st day after exposure.
Impetigo	Individual must remain at home until 24 hours after treatment is initiated.
Influenza	Individual must remain home until no fever is detected for 24 hours.
Lice (Pediculosis)	Individual must remain at home until the morning after treatment.

Measles (Rubella) Individual must remain at home for four (4) days after the

appearance of rash. Susceptible child will be excluded from the 5th

exposure.

Mumps swelling.

Individual must remain at home for nine (9) days after onset of

Susceptible pers

Susceptible person will be excluded from the 12th to the 26th day

after exposure.

Scabies Individual must remain at home until treatment has been completed.

Streptococcus (strep) Individual must remain home until 24 hours after the

first dose of antibiotics is given and be free of fever.
