

Expanding E-Learning in STEM (Online Asynchronous Course Developer) 2021-2022

All STEM faculty are invited to apply for the opportunity to participate in the expansion of e-Learning courses, minors, and programs. This activity seeks to expand e-Learning in STEM programs to promote access and opportunity for students pursuing academic programs and careers in STEM areas.

The focus of STEM Course Developer Year 2:

1. Develop and certify e-Learning courses which support STEM majors, up to the 400 level

In summary, STEM Course Developer participants will:

1. Select a course of your discipline
2. Deadline to develop one course per year*
 - November 15th for Spring Semester
 - March 15th for Summer Semester
 - May 15th Fall Semester
3. Complete Online Course Request Form
Submit to odees@aamu.edu and copy paris.cooper@aamu.edu
4. Must attend (1) course development training

Things to Remember

1. Pre-record your lectures.
2. YOU must PROVIDE instruction, do not outsource a tremendous amount of YouTube.
3. You can use YouTube, but it should not exceed the amount of instruction from the course developer.
4. Recommended maximum 15-20 minutes per video recording.
5. The course must include 12-15 hours of instruction, for a 12-week semester.
6. eLearning labs and various resources are available to reserve
7. All developers have instructional priority of the course, for two years.
8. The Online Course Request Form is not an MOU
9. **You cannot develop over 25% of your major in online courses**
10. Participants are eligible for a stipend up to \$1000.
 - a. \$800 (with third party tool used)
 - b. \$1200 (without third party tool used)

*Programs may be approved under special circumstances.
