0	utcome 1: Assessment Measure 1
Class:	SWK 414, SWK 414L
Course Mode:	Face-to-Face
Assignment:	Field Practicum, SWK 414
Evaluation Tool:	Final Field Instructor Evaluation Form . Five (5) items will assess students' demonstration of ethical and professional behavior, including: (1) students' ability to make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to context (2) students' use of reflection and self-regulation to manage personal values and maintain professionalism in practice situations (3)students' demonstration of professional demeanor in behavior; appearance, and oral, written, and electronic communication (4)students' use of technology ethically and appropriately to facilitate practice outcomes (5) students' use of supervision and consultation to guide professional judgment and behavior
Performance Target:	The benchmark consists of a score of 80% on items assessing ethical decision-making that are scored at 3, 4, or 5. A score of 3=satisfactory performance, 4=above average performance, 5=exceptional performance of practice behaviors.

Results:	The average score of the five (5) items assessing students' demonstration of ethical and professional behavior is 99.2%. The results of the five items is indicated below:  28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored at 3 or higher on the item assesing students' ability to make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to content.  28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' use of reflection and self-regulation to manage personal values and maintain professionalism in practice situations.28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' demonstration of professional demeanor in behavior; appearance, and oral, written, and electronic communication.  27 out of 28 (96%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' use of technology ethically and appropriately to facilitate practice outcomes.  28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' use of technology ethically and appropriately to facilitate practice outcomes.
	28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' use of supervision and consultation to guide professional judgment and behavior.
Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no course level changes will be made based upon the outcome results of this competency. The program will continue to monitor student progress in this area.
Outcome 1: Assessment Measure 2	
Class: Course Mode:	SWK 302; SWK 414; SWK 414L Face-to-Face
Course Mode:	race-to-race

Assignment:	Student Portfolio-Written Section Addressing Council on Social Work Education (CSWE) Competencies. Areas assessed: (1) students' ability to make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to context (2) students' use of reflection and self-regulation to manage personal values and maintain professionalism in practice situations (3)students' demonstration of professional demeanor in behavior; appearance, and oral, written, and electronic communication (4)students' use of technology ethically and appropriately to facilitate practice outcomes (5) students' use of supervision and consultation to guide professional judgment and behavior
Evaluation Tool:	Student Portfolio-Narrative Section. Consists of evaluation of written results of student's knowledge, values, cognitive/affective reactions and behaviors and skills associated with demonstration of ethical and professional behavior. Five (5) items will assess students' demonstration of ethical and professional behavior.
Performance Target:	Eighty percent (80%) of responses to- each assessed category of the narrative section of the student portfolio on ethical and professional behavior will receive a score of 3= (Proficient) or 4= (Excellent)

Results:	The average score of the five (5) items assessing students' demonstration of ethical and professional behavior is 99.2%. The results of the five items is indicated below:  27 out of 27 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, and additional codes of ethics as appropriate to content.  26 out of 27 (96.3%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' use of reflection and self-regulation to manage personal values and maintain professionalism in practice situations.  27 out of 27 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' demonstration of professional demeanor in behavior; appearance, and oral, written, and electronic communication.  27 out of 27 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' use of technology ethically and appropriately to facilitate practice outcomes.  27 out of 27 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' use of technology ethically and appropriately to facilitate practice outcomes.
Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no course level changes will be made based upon the outcome results of this competency. The program will continue to monitor student progress in this area.

Student Learning Outcome 2		
BSW students identify social policy at the	BSW students identify social policy at the local, state, and federal level that impacts well-being, service delivery,	
and access to social services

Class:	SWK 414	
Course Mode:	Face-to-Face	
Assignment:	Field Practicum-SWK 414	
Evaluation Tool:	Final Field Instructor Evaluation Form. The tool consists of three (3) items assessing students' demonstration of engagement in social work policy practice, and includes students' ability to: (1) Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services (2) Assess how social welfare and economic policies impact the delivery of and access to social services (3) Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice	
Performance Target:	The benchmark consists of a score of 80% on items assessing student competence in social welfare policies that are scored at 3, 4, or 5. A score of 3=satisfactory performance, 4=above average performance, 5=exceptional performance of practice behaviors	

Results:	The benchmark was exceeded. The measure had a score of 100% on items assessing BSW student competence in social welfare policies that were scored at 3, 4, or 5. A score of 3=satisfactory performance, 4=above average performance, 5=exceptional performance of practice behaviors. The average score of the three (3) items assessing students' demonstration of engagement in social work policy practice was (100%) as indicated below:  28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' ability to identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services 28 out of 28 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' ability to assess how social welfare and economic policies impact the delivery of and access to social services 26 out of 26 (100%) of the submitted final field instructor evaluation forms were scored 3 or higher on the item assessing students' ability to apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice
Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no course level changes will be made based upon the outcome results of this competency. The program will continue to monitor student progress in this area.
0	utcome 2: Assessment Measure 2
Class:	SWK 403, SWK 414L
Course Mode:	Face-to-Face
Assignment:	Student Portfolio-SWK 414L
Evaluation Tool:	Student Portfolio.Student Portfolio-Written Section Addressing Council on Social Work Education (CSWE) Competencies. The tool consists of three (3) items assessing students' demonstration of engagement in social work policy practice, and includes students' ability to: (1) Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services (2) Assess how social welfare and economic policies impact the delivery of and access to social services (3) Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice

Performance Target:	Eighty percent (80%) of responses to items assessing students engagement in social work policy practice will receive a score of 3= (Proficient) or 4= (Excellent).
Results:	The benchmark of 80% for this outcome was exceeded. The average score of the three (3) items assessing students' demonstration of engagement in social work policy practice was (98.77%). The results of the three items are listed below:  28 out of 28 (100%) of the scores were scored 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services.  27 out of 27 (100%) of the scores were scored 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to assess how social welfare and economic policies impact the delivery of and access to social services.  26 out of 27 (96.3%) of the scores were scored 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.
Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no course level changes will be made based upon the outcome results of this competency. The program will continue to monitor student progress in this area.

	Student Learning Outcome 3
RSW students demonstrate knowledge	and engagement in practices that advance social and economic justice.
	Outcome 3: Assessment Measure 1
Class:	SWK 414
Course Mode:	Face-to-Face
Assignment:	Field Practicum
Evaluation Tool:	Final Field Instructor Evaluation Form. Two (2) items will assess students' demonstration of knowledge, values, skills, behavior, and/or cognitive/affective reactions to advancing human rights and social, economic and environmental justice in the field of social work, including: (1) students' ability to apply understanding of social, economic and environmental justice to advocate for human rights at the individual and systems level, and (2) students' ability to engage in practices that advance social, economic, and environmental justice.
Performance Target:	Eighty percent (80%) of responses to items assessing students knowledge and enagement in practices that advance social and economic justice will receive a score of 3 or higher. A score of 3 satisfactory, 4= above average, and 5=exceptional
Results:	The benchmark of 80% for this outcome was exceeded. The average score of the two (2) items assessing students' demonstration of knowledge, values, skills, behavior, and/or cognitive/affective reactions to advancing human rights and social, economic and environmental justice in the field of social work was (100.00%). The results of the two (2) items are listed below:  27 out of 27 (100%) of the scores on the Final Field Instructor Evaluation Form, assessing students' ability to apply understanding of social, economic and environmental justice to advocate for human rights at the individual and systems level, were scored at 3 (satisfactory), 4 (above average) or 5 (exceptional).  27 out of 27 (100%) of the scores on the Final Field Instructor Evaluation Form, assessing students' ability to engage in practices that advance social, economic, and environmental justice were scored at 3 (satisfactory), 4 (above average) or 5 (exceptional).

Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no course level changes will be made based upon the outcome results of this competency. The program will continue to monitor student progress in this area.
0	utcome 3: Assessment Measure 2

Evaluation Tool:	Student Portfolio-Written Section Addressing Council on Social Work Education (CSWE) Competencies. Areas assessed: (1) students' demonstration of knowledge, values, skills, behavior, and cognitive/affective reactions to advancing human rights and social, economic and environmental justice in the field of social work (2) students' ability to engage in practices that advance social, economic, and environmental justice.
Performance Target:	Eighty percent (80%) of responses to items assessing students' knowledge, values, cognitive/affective reactions, behaviors and/or skills associated with demonstration of advancement of human rights, social, economic and environmental justice will receive a score of 3= (Proficient) or 4=(Excellent).
Results:	The benchmark of 80% for this outcome was exceeded. The average score of the two (2) items assessing students' demonstration of knowledge, values, skills, behavior, and/or cognitive/affective reactions to advancing human rights and social, economic and environmental justice in the field of social work was (100.00%). The results of the two (2) items are listed below:  16 out of 16 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to apply their understanding of social, economic and environmental justice to advocate for human rights at the individual and systems level.  16 out of 16 (100%) of the scores were graded at 3 (proficient) or 4 (excellent) in the narrative section of the portfolio assessing students' ability to engage in practices that advance social, economic, and environmental justice.

	The results of the assessment are provided to faculty and the
Use of Results:	assessment committee members within the department. Based upon
	recommendations, no course level changes will be made based upon
	the outcome results of this competency. The program will continue to
	monitor student progress in this area.

Program Outcome 1	
BSW student assessment of BSW faculty	effectiveness in teaching, student interactions, advisement and comunic
Assessment Measure:	BSW Exit Interview 2018-2019
Assessment Target:	80% of student responses assessing BSW faculty, will indicate " Strongly agree" or "Agree" on the items assessed
Assessment Results:	Over ninety percent91.64% of student responses assessing BSW faculty, indicate "Strongly agree" or "Agree" on the items assessing BSW faculty effectiveness in teaching, student interactions, advisement and comunications with students and other faculty members. There were a total of 15 repondents for the survey.
Use of Results:	The results of the assessment are provided to faculty and the assessment committee members within the department. Based upon recommendations, no program level changes will be made based upon the outcome results of this outcome. The program will continue to monitor student assessment of faculty performance.
	Program Outcome 2
BSW student assessment of Student Gov	
Assessment Measure:	BSW Exit Interview 2018-2019
Assessment Target:	80% of responses assessing student perception of student governance opportunities within the BSW program will indicate "Strongly agree" or "Agree" on the item assessed
Assessment Results:	Eighty percent 80.0% of responses assessing BSW students' perception of opportunities for student governance in the BSW program were scored "Strongly agree" or "Agree" on the item assessed. 12 out of 15 responses indicated "Strongly agree or "agree"

	assessment committee members within the department. Based upon
	recommendations, we will assess opportunities to increase governance
	opportunities for students at our Lawson State Community College
	location, including representation on a selected Social Work
	faculty/staff committee . We noted that student responses from
	students at this program location were less likely to report "strongly
Use of Results:	agree or "agree" on the item assessed. The program will continue to

# Summative Remarks on Assessment of Student Performance in the BSW Program 2018-2019, and Assessment focus for 2019-2020.

The assessment of the 2018-2019 BSW program student learning outcomes indicate that the benchmark for all nine CSWE competencies for both Main Campus and the Lawson location were met. In addition, the BSW program outcomes, which include results of the BSW student exit surveys, met the benchmark. The BSW program implemented course level and programmatic changes in 2018-2019 that were linked to and driven by the results of the 2017-2018 program assessment. We were pleased to see in our 2018-2019 assessment results, improvement in the scores on items that did not meet the benchmark in the 2017-2018 assessment. We were also pleased to see that the improved item areas have clear linkages to programmatic and course changes in 2018-2019.

In discussion with the BSW Program Coordinator and the Assessment Committee, the BSW program will use two competencies not assessed in the 2018-2019 student learning outcomes for the 2019-2020, AAMU OIPRE student learning outcomes report. This will allow the BSW program to more closely examine student performance in additional content areas.

The three (3) student learning outcomes for the 2019-2020 OIPRE for the BSW program are:

**CSWE Competency #2-** Students will demonstrate engagement of difference and diversity in practice.

**CSWE Competency #5-** Students will demonstrate engagement in policy practice (2018-2019 SLO)

**CSWE Competency # 7:** Students demonstrate engagement in the assessing of individuals, families, groups, organizations, and communities

Each competency and its corresponding practice behaviors are fully explored in the language of the social work education accrediting body-the Council on Social Work Education:

Competency 2: Engage Diversity and Difference in Practice Social workers understand how diversity and difference characterize and shape the human experience and are critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including but not limited to age, class, color, culture, disability and ability, ethnicity, gender, gender identity and expression, immigration status, marital status, political ideology, race, religion/spirituality, sex, sexual orientation, and tribal sovereign status. Social workers understand that, as a consequence of difference, a person's life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim. Social workers also understand the forms and mechanisms of oppression and discrimination and recognize the extent to which a culture's structures and values, including social, economic, political, and cultural exclusions, may oppress, marginalize, alienate, or create privilege and power.

The three practice behaviors associated with this competency are listed below:

Social workers: (a) apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels; (b) present themselves as learners and engage clients and constituencies as experts of their own experiences; and (c) apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies.

Competency 5: Engage in Policy Practice Social workers understand that human rights and social justice, as well as social welfare and services, are mediated by policy and its implementation at the federal, state, and local levels. Social workers understand the history and current structures of social policies and services, the role of policy in service delivery, and the role of practice in policy development. Social workers understand their role in policy development and implementation within their practice settings at the micro, mezzo, and macro levels and they actively engage in policy practice to effect change within those settings. Social workers recognize and understand the historical, social, cultural, economic, organizational, environmental, and global influences that affect social policy. They are also knowledgeable about policy formulation, analysis, implementation, and evaluation.

The three practice behaviors associated with this competency are listed below:

Social workers: (a) Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services; (b) assess how social welfare and economic policies impact the delivery of and access to social services; (c) apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

Competency 7: Assess Individuals, Families, Groups, Organizations, and Communities Social workers understand that assessment is an ongoing component of the dynamic and interactive process of social work practice with, and on behalf of, diverse individuals, families, groups, organizations, and communities. Social workers understand theories of human behavior and the social environment, and critically evaluate and apply this knowledge in the assessment of diverse clients and constituencies, including individuals, families, groups, organizations, and communities. Social workers understand methods of assessment with diverse clients and constituencies to advance practice effectiveness. Social workers recognize the implications of the larger practice context in the assessment process and value the importance of interprofessional collaboration in this process. Social workers understand how their personal experiences and affective reactions may affect their assessment and decision-making.

The four corresponding practice behaviors are listed below:

Social workers: (a) collect and organize data, and apply critical thinking to interpret information from clients and constituencies; (b) apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies; (c) develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies; and (d) select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

### Assessment of AAMU BSW Program 2018-2019

The Alabama A&M University's Social Work Program is continuously monitored and evaluated. The BSW program measures student competence using CSWE 2015 competencies and practice behaviors. The process of evaluating CSWE competencies within the BSW program is multidimensional, and involves all BSW faculty, along with the Social Work Programs Evaluation and Assessment Committee, which include the Director of Field Education, the BSW Program Coordinator, MSW Program Coordinator, and the Lawson State Site BSW Program Coordinator, and three additional faculty members. This group of faculty is responsible for developing and/or revising survey instruments. Additionally, the Evaluation and Assessment Committee is responsible for the completion of data analyses and data reporting. The BSW faculty meet monthly to discuss program matters, which include the data generated from formal assessments and informal observations (e.g., student absenteeism, student writing and APA documentation) in efforts to strengthen the BSW Program. The meetings are held to ensure that the program continues to achieve its stated mission, goals, curriculum objectives and student engagement in CSWE competencies.

A variety of quantitative and qualitative methods are used to assess the BSW Program's effectiveness, including practicum experience, capstone course assessing student integration of competencies, and student exit surveys. A description of measures that were used in the 2018-2019 assessment is in (Table 1) indicating when they are administered.

- SWK 414 Field Instruction of Student Performance Evaluation –Student performance in CSWE 2015 competencies are assessed by field instructors within the final semester of student enrollment in the SWK 414 Field Instruction course. The purpose of the evaluation process is to help students and the BSW program examine student educational progress in meeting the CSWE competencies within field instruction. Through this assessment, students develop an ongoing self-awareness that will serve as a foundation for future learning and development. The field instructor and faculty liaison conduct the field practicum evaluation that delineates a student's progress in each of the nine (9) CSWE 2015 competencies, and 31 practice behaviors.
- Student Capstone Assignments—The Student Capstone Presentation has been used by the BSW Program for several years, but within the past two years, the Student Capstone Assignment has been modified from its previous Portfolio format. The current Student Capstone Assignment consists of several parts. One of the measures from the Capstone Assignment used to assess student competencies for 2018-2019 is the Student Capstone Written Presentation, which was inaugurated in the Spring of 2018. The Capstone Assignment occurs during the semester of the student's graduation and is administered by the BSW Program Faculty with assistance from the Evaluation and Assessment Committee. All sections of the Student Capstone Assignment are assessed by teams of faculty. The Student Capstone Portfolio is a requirement for graduation
  - o Student Capstone Written Assessment of Competencies -In Spring 2018, the program initiated the Student Capstone Written Assignment, in which students who are in their field placement (SWK 414) and graduating semester are required to reflect on the 9 CSWE competencies and 31 associated practice behaviors as demonstrated through their field placement and BSW coursework experiences. All

sections of the Student Capstone Assignment are assessed by teams of faculty. The assignment is a requirement for graduation.

• BSW Exit Surveys- The BSW Exit Survey is an on-line survey, completed by graduating BSW students, to assess student perceptions of multiple content areas within the BSW Program. The surveys are conducted at the end of the semester in which students graduate. As students are one of the most significant of stakeholders in the BSW Program, graduating student feedback on areas of the BSW Program's curriculum, program operations, student governance, and faculty, has greatly assisted in program review and program planning. The BSW Exit survey also provides valuable feedback regarding the students' perception of the BSW Program curriculum and the acquisition of knowledge, values and skills necessary for generalist practice. The assessment was conducted on-line in coordination with the BSW Field Coordinator who notified graduating students of the BSW Exit Survey. The Exit survey was used for data collection in previous program years. An updated survey has been in use in the BSW program since Fall, 2017.

# Main Campus Program Option and Lawson State Community College site

The BSW Program is offered at two site locations, including the Main Campus in Huntsville, and the Lawson State Community College site. May, 2019 is represents the first cohort to graduate from the Lawson State site. Assessment data is collected from both program sites. The following (Table 1) provides a description of the assessment procedures that detail when, where and how each competency is assessed for each program option, including any additional competencies added by the program.

Table 1

Assessment Procedures Overview for BSW Program at Main Campus and Lawson Site Program Options

Measures	Where	Data Provided by	Administered/ Collected by	When	Data Assessed by
1. BSW Field Instruction Student Performance Evaluation	Main Campus And Lawson	Field Instructors	BSW Field Coordinator	End of Field Placement Fall, and Spring semesters	BSW Field Coordinator and Evaluation and Assessment Committee members
2. Student Capstone/Written Assessment of Competencies	Main Campus And Lawson	Panel of Social Work Faculty	BSW Program Coordinator and BSW Faculty	Semester of Graduation. Fall and Spring semesters	BSW Program Coordinator, BSW Faculty members and Evaluation and Assessment Committee members

3. BSW Student Exit Surveys (Implicit Curriculum)	Main Campus And Lawson	Social Work Faculty and Evaluation and Assessment Committee members	Evaluation and Assessment Committee members	Semester of Graduation. Fall and Spring semesters	BSW Program Coordinator, BSW Faculty members and Evaluation and Assessment Committee members

# Measure 1: Measure in Real Practice Experience

# Fall, 2018-Spring, 2019 BSW Field Instruction Student Performance Evaluation

2018-2019 BSW Final Field Instruction Student Performance Evaluation (SWK 414)Competency Benchmark: 80% receive a score of 3 -5 for each practice behavior item. The percentage of students achieving the benchmark for each item is added up and averaged for each competency. An average percentage of 80% or higher indicates that the competency has been attained. The name key for each competency practice behavior is listed below each graph. The key for competency dimension abbreviations is provided as follows:

K=Knowledge; S=Skills; V=Values; C/A=Cognitive/Affective reactions; B=behavior

### **Competency 1-Demonstrate Ethical and Professional Behavior**

Competency	Dimensions	5	4	3	2	1	N/A	Competency	(N=28)
1								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S,C/A,V, B	18	8	1				100	(*N=27)
В	K,S,C/A, V,B	19	8	1				100	
С	K,S,C/A,V,B	20	7	1				100	
D	K,S,V,B	20	6	1			1	96	
E	K,S,C/A,V.B	19	9	1				100	
Average perce	entage of Com		99.2						

Competency 1-Practice behaviors:

- 1A. Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context
- 1B. Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.
- 1C. Demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication.
- 1D. Use technology ethically and appropriately to facilitate practice outcomes
- 1E. Use supervision and consultation to guide professional judgment and behavior

### **Competency 2-Engage in Diversity in Practice**

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
2								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S,C/A,V,B	20	7	1				100	
В	K,S,C/A,V,B	20	7	1				100	
С	K,S,C/A, V, B	22	5	1				100	
Average perc	entage of Com	100							

Competency 2 practice behaviors

- 2A. Apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels
- 2B. Present themselves as learners and engage clients and constituencies as experts in their own experiences
- 2C. Apply self-awareness and self-regulation to manage the influence of personal biases and values in working with diverse clients and constituencies

### Competency 3-Advance Human Rights and Social and Economic and Environmental Justice

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=27
3								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S,C/A,B	16	9	2				100	
В	K,S,B	18	8	1				100	
Average Perce	ntage of Com	100							

Competency 3 practice behaviors:

- 3A. Applying understanding of social, economic and environmental justice to advocate for human rights at the individual and systems level.
- 3B. Engage in practices that advance social, economic, and environmental justice.

# **Competency 4: Engage in Practice Informed Research and Research-informed Practice**

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
4								Benchmark:	
Practice								80% score	
Behaviors								3-5	
А	K,S,B	11	13	1			2	92	(N=27)
В	K,S,C/A,B,V	12	10	1			3	87	(N=26)
С	K,S,C/A,B,V	13	9	2			2	91	(N=26)
Average perce	ntage of Com	·	90						

Competency 4 practice behaviors:

- 4A. Use practice experience and theory to inform scientific inquiry and research.
- 4B. Apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings.
- 4C. Use and translate evidence to inform and improve practice, policy, and service delivery.

### **Competency 5-Engage in Policy Practice**

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
5								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S,B	16	10	2				100	
В	K, S,C/A,B	18	8	2				100	
С	K,S, C/A, V,B	10	14	2				100	(N=27)
Average perce	ntage of Comp	100							

Competency 5 practice behaviors:

- 5A. Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services.
- 5B. Assess how social welfare and economic policies impact the delivery of and access to social services.
- 5C. Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice.

# Competency 6-Engage with Individuals, Families, Groups, Organizations and Communities

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
6								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S, C/A,B	17	10	1				100	
В	S,C/A, V,B	22	5	1				100	
Average perc	entage of Com	100							

Competency 6 practice behaviors:

- 6A. Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies.
- 6B. Use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies.

#### Competency 7- Assess Individuals, Families, Groups, Organizations and Communities

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
7								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S,C/A,B	14	12	2				100	
В	K,S, C/A,B	16	10	2				100	
С	K,S,C/A, V B	14	10	2				100	
D	K,S,B, C/A, V	15	12	1				100	
Average perce	ntage of Comp		100						

Competency 7 practice behaviors:

- 7A. Collect and organize data and apply critical thinking to interpret information from clients and constituencies.
- 7B. Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies.
- 7C. Develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies.
- 7D. Select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies.

### Competency 8- Intervene with Individuals, Families, Groups, Organizations and Communities

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
8								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K, S,C/A,B	18	5	3				100	(N=26)
В	K, S, C/A, V, B	19	7	1				100	(N=25)
С	K, S, C/A,B	17	8	1				100	(N=26)
D	K, S,B, C/A, V	20	6	2				100	(N=28)
E	K,S, V, C/A,B	13	8	3				100	(N=24)
Average perce	ntage of Compe	100							

Competency 8 practice behaviors:

- 8A. Critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies.
- 8B. Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies.
- 8C. Use inter-professional collaboration as appropriate to achieve beneficial practice outcomes.
- 8D. Negotiate, mediate, and advocate with and on behalf of diverse clients and constituencies.
- 8E. Facilitate effective transitions and endings that advance mutually agreed-on goals.

#### Competency 9- Evaluate Practice with Individuals, Families, Groups, Organizations and Communities

Competency	Dimensions	5	4	3	2	1	N/A	Competency	N=28
9								Benchmark:	
Practice								80% score	
Behaviors								3-5	
Α	K,S, B, C/A, V	17	9	2				100	
В	K,S, B C/A, V	17	10	1				100	
С	K, S, V, C/A, B	18	8	2				100	
D	S, C/A, B	18	9	1				100	
Average perc	entage of Comp	100							

Competency 9 practice behaviors:

- 9A. Select and use appropriate methods for evaluation of outcomes.
- 9B. Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes.
- 9C. Critically analyze, monitor and evaluate intervention and program processes and outcomes.
- 9D. Apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

- 9D. Apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels.

# Alabama A & M University BSW Program Main and Lawson Site (Aggregate Scores) Capstone Written Portfolio Results Fall 2018- Spring 2019

# **Written Demonstration of Competencies and Behaviors:**

There are nine competency areas that have been established by the Council of Social Work Education (CSWE), our national accrediting body. Each competency area has a list of practice behaviors that each student will be compared to as an entry level social worker. Students are required to write a response to each behavior listed under each of the nine competencies. The benchmark for performance is a score of 80% or higher on the overall competencies assessed.

Competency I: Demonstrate F	Ethical and Pro	fessional Behav	vior		
Outcome/Behavior  Dimensions- K=Knowledge; S=Skills; V=Values; C/A=Cognitive/Affective reactions; B=behavior	Excellent (4) Evidence of Program Outcomes, reflects performance of a professional social worker	Proficient (3) Evidence of Program Outcomes, reflects an exemplary level of performance	Less than Adequate (2) Evidence of Program Outcomes, reflects development towards expected outcomes	Limited (1) Evidence of Program Outcomes, reflects no development	Benchmark Percentage 80% Score of 3 or 4
1.1- Make ethical decisions by applying standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision making, ethical conduct of research, and additional codes of ethics as appropriate to context; <i>Dimensions: K, C/A, V, S, B</i>	16	11			100 (N=27)
1.2-Use reflection and self-regulation to manage personal values and maintain professionalism in practice situations.  Dimensions: K, C/A, V, S, B	19	7	1		96.3
1.3-Demonstrate professional demeanor in behavior; appearance; and oral, written, and electronic communication; <i>Dimensions: K, C/A, V, S, B</i>	20	7			100
1.4-Use of technology ethically and appropriately to facilitate practice outcomes; <i>Dimensions: K, C/A, V, S, B</i>	19	8			100
1.5-Use supervision and	19	8			100

Competency 3: Advance Human Rights and	Competency 3: Advance Human Rights and
Social, Economic, and Environmental Justice	Social, Economic, and Environmental Justice
2017-2018 Assessment Results  The BSW Program has responded by making course level changes in response to this outcome measure. Students in SWK 403 - Welfare Policies, a required course, are engaging in community/political-based activities as part of the course content. These activities are aligned with advancing human rights, and social and economic justice.	2017-2018- Assessment Results Although the overall benchmark for assessment of Competency 3 was met (80.23%), students did not meet the 80% benchmark for the Capstone Written Assessment of Competency #3 (70.83%).

#### 2018-2019- Implementations

Students engaged in the following additional assignments:

- Advocacy Letter Assignment Students write a letter to a State Representative about a social issue/policy they had concerns about
- Students attend a City Council Meeting
- Article Reviews Students complete articles reviews on social welfare issues
- Engagement in Class Debate on a social issue

#### 2018-2019- Assessment Results

After implementation of additional course assignments in SWK 403, during 2018-2019, results for the overall the assessment of Competency #3 indicates an improvement in score --100% (N=28). The score for the Capstone Written assessment of Competency #3 was 100% (N=27)

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

#### 2017-2018 Assessment Results

The Evaluation and Assessment Committee agreed with the BSW Coordinator and BSW Faculty on recommended actions which consisted of the following:

• BSW Faculty will continue to engage BSW students who are seniors in a portfolio orientation that will review standards and behaviors and identify where students are demonstrating the competencies and practice behaviors within the classroom and field setting.

As of Fall, 2018, a Portfolio orientation is being developed for students who are in their junior year of the BSW program to reinforce student engagement with CSWE competencies --An emphasis on selection of appropriate evaluation methods will be provided at the course level in SWK 410 (Research). --Field instructor workshops will be enhanced to assist field instructors in helping students

evaluate their practice and the micro, mezzo and

macro levels within the field placement setting.

Competency 9: Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

#### 2017-2018 Assessment Results

Assessment results indicated that although the overall benchmark was achieved, (87.5%), the Capstone Written Measure did not achieve the benchmark (79.16%), and two specific practice behaviors had lower than average scores: "Select and use appropriate methods for evaluation of outcomes (58.33%)" and "Apply evaluation findings to improve effectiveness at the micro, mezzo and macro levels (66.67%).

#### 2018-2019 Assessment Results

Assessment results indicate that the 80% benchmark was met for the overall assessment of the comptency-100% (N=28). Items from the Capstone Written measure, which scored below the benchmark in 2017-2018, scored above the benchmark in 2018-2019, following the implementation of changes to the curriculum in 2018-2019. The item: "Select and use appropriate methods for

At the course level (SWK 415)— students will engage in tracking their progress within the field setting using research methods.

---(Faculty believe that by engaging field instructors and faculty in addressing strategies to engage students in CSWE Competency 9 will increase students' ability to evaluate practice with individuals, families, groups, organizations, and communities.

#### 2018-2019 Implementations -

Recommendations were implemented. Faculty at both Main Campus and Lawson site met to coordinate portfolio orientations, and the Director of Field Education, BSW program coordinator and BSW Field Coordinator worked together to engage field placement instructors on the importance of opportunities to demonstrate practice behaviors in the field of research.

evaluation of outcomes" was scored at (100%) (n=27) and "Apply evaluation findings to improve effectiveness at the micro, mezzo and macro levels" was scored at (100%) (n=27). We were pleased to see improvement in this area of student learning.

#### **BSW Exit Survey. 2018-2019**

The BSW Program used the Fall 2018 and Spring -2019 BSW Exit surveys, which were voluntary, online assessments, completed by graduating BSW students, to assess the student perceptions of the BSW Program. The surveys were conducted at the end of the semester in which students graduated. As students are one of the most significant of stakeholders in the BSW Program, graduating student feedback on areas of the BSW Program's curriculum, program operations, student governance, and faculty, has greatly assisted in program review and program planning. The BSW Exit survey also provides valuable feedback regarding the students' perception of the Program curriculum and the acquisition of knowledge, values and skills necessary for generalist practice. The assessment was conducted on-line in coordination with the BSW Field Coordinator who notified graduating students at both the Lawson and Main Campus of the BSW Exit Survey. The first BSW cohort graduated from the Lawson State program site in May, 2019, therefore there is no Fall, 2018 results for the Lawson site.
